CG Society Updates

CG Week 2025

Founding Board

Marc van Kreveld   Wolfgang Mulzer   Bettina Speckmann   Frank Staals

CG Society

The CG Society promotes scientific research in Computational Geometry and Computational Topology by organizing the free, international exchange of knowledge, experience, and ideas in these research areas.

First CG Week as an event of the CG Society!

Code of Conduct   *every member starts with a clean slate*

Membership & board

465 members *as of yesterday*

314 regular members *members have a vote after 90 days*

General Assembly Part I took place on June 16

Vote for the first regular board by July 1

Bettina and Frank stay on until 2027

General Assembly Part II on July 3 *purely to read votes*

Technical setup

Thanks to the IT committee

  Yossi Bokor Bleile (IST Austria)
  Fabian Klute (Universitat Politècnica de Catalunya)
  Willem Sonke (TU Eindhoven)

More and more material ported to new webpage design

Thanks to conova for sponsoring the hosting!

1 paid Google Workspace

  rights management & GDPR compliant

  as safe as it gets at the moment …
  without having to maintain our own security

Experiences from CG Week

Everything went very smoothly!

Registration process:

1. local organizers have access to relevant membership info
2. regular registration with field for membership number
   if no society membership, then registration revoked
   costs for registrant

Some forgot and then quickly registered for the society
No other issues and no complaints

Thanks to the local organizers for figuring things out with us!
